

# #1 TEACHER!

## **Burning Instructions:**

Remove paper sleeve before burning candle!

Keep wick centered and trimmed to 1/4"

FIRST LIGHTING: Burn for 5-10 minutes.

For the next 4-5 lightings, gradually increase burning times until the "crayon top" is gone.

Once the candle has a flat surface, burn a minimum of 3 hours at each lighting.

Pillars should always have a flat surface, not a "deep well."

Gently "hug" the soft wax around the well to maintain a flat surface.
